### **BEHAVIOR PROCEDURES**

Guidelines:

In the event that participants, members, or guests exhibit inappropriate actions, the following guidelines are recommended. Program leaders and district staff will determine the severity of the action and immediately take steps to correct it. These may include but are not limited to:

- A. A corrective discussion or verbal warning.
- B. A supervised time-out (or redirection to another activity) up to 10-15 minutes from the program/ activity. The type of time out may vary according to the situation (observational: from the sidelines of activity; exclusion: away from the group but within view of activity; seclusion: time-out area with staff member present away from view of activity).
- C. A discussion with parents when involving youth participants, members, or guests. If not already being utilized, a behavior modification program should be developed and implemented (those involved in development may include, but not limited to, Park District staff, special recreation staff, parent/guardian, camp personnel, other support professionals). The behavior modification program should be monitored and reviewed as needed. Communication between staff (program leaders, supervisory and special recreation) and parents should be ongoing regarding any further incidences of inappropriate behavior. Documentation is required. Other related professionals (teachers, social worker, etc.) may be consulted for input and suggestions.

- D. If inappropriate behavior persists, further action may be required and removal from program, activity, or membership may be necessary. Other options may include but are not limited to:
- Transfer to another program/activity where inappropriate behavior may be less prone to occur.
  - Adjustment, reduction, or modification of timeframe that participant or member is allowed to attend the program/activity.
  - Suspension from program, activity, or membership for a designated time period. When determining timeframes for suspension, staff will consider the severity of the actions, the length of the program or activity, any past behavior issues, and the willingness to cooperate.
  - Removal from the program, activity, or membership. If inappropriate behavior persists or the behavior is completely disruptive, removal from the program may be necessary. The District reserves the right to dismiss a participant, member, or guest whose behavior endangers his or her own safety or the safety of others.
- E. Behavior may require immediate removal from the activity, program, and premises. Prior to resuming activities, supervisory or management staff will meet with participant, member, or guest to review and discuss conduct expectations going forward.
